

Biotech Clinical Laboratory Technical Bulletin

Effective Jan 3rd 2022 Biotech Clinical Laboratory introduced a new Viral Respiratory Panel that includes Influenza A and B, Respiratory Syncytial Virus (RSV) and COVID-19 virus.

Our new Panther Fusion system can perform tests for Influenza A, B and RSV by using real time PCR technology and COVID-19 test by Nuclear Acid amplification (NAAT).

With the addition of this new panel, we now have three tests for identifying a respiratory illness:

3695 – Respiratory Complete PCR Panel of 22 viruses.

6016 – Respiratory 4 PCR Panel for Flu A/B, RSV, and Covid-19.

13995 – Covid-19 PCR, only.
